HOW REPAYMENT WORKS, AFTER GRADUATION?

Repayment begins in August after graduation. The deferred amount is paid after completing your studies, according to the selected repayment plan.

Important: The ISA does not reduce the total program cost. It changes when you pay, allowing you to spread part of the cost until after graduation.

Tuition fees may be adjusted annually for inflation and may be influenced by the selected pricing plan and scholarships available at enrollment

If you paid during studies...	12 months (no extra cost)	18 months (+5%)
Once a year	500 €/month (6,000 € total)	350 €/month (6,300 € total)
In 8 instalments	575 €/month (6,900 € total)	402.50 €/month (7,245 € total)

WHY SHOULD YOU CONSIDER ISA?

1. Pay less while you study.

Pay part of your tuition now and the rest after graduation.

2. Repayment starts after graduation.

Your repayments begin in August after you graduate.

3. Choose your repayment pace.

Repay over 12 months, or choose 18 months for smaller monthly payments (+5%).

Frequently Asked Questions

Q: Is it more expensive overall?

The total program cost is 13,800 € with annual full payment or 14,850 € with payment in 8 instalments. The ISA spreads part of the payment over time; it does not reduce the total cost.

Q: Why not pay everything upfront?

You can. The ISA offers flexibility by allowing you to preserve financial resources during your studies and pay the deferred amount after you start your career.

Q: What if I don't get a job immediately?

Repayment starts in August after graduation, giving you time to enter the job market.

Q: Is the 5% fee mandatory?

No. The 12-month option has no additional cost. The 5% flexibility fee applies only to the 18-month plan.

Q: Is this a loan?

It is presented as an Income Share Agreement model, not a bank loan.

Q: Are there hidden costs?

The structure outlines the annual program fee, ISA fee, deferred amount and repayment options. Tuition may be adjusted for inflation and can be influenced by the selected plan and available scholarships.
