### Terms & Conditions

The purpose of this document is to provide a general outlook on internship earnings and to show that they can generally overtake the expenses with tuition. But please keep in mind that this is an educational programme and not an employment offer and should be treated likewise.

(1) Earnings are exclusive of living expenses. Some Host Companies provide accommodation for free, some for a low rent, some not at all. Check with your Career representative all internship offers before applying for one.

(2) Host Companies should be considered on other merits as well (training opportunities, standards of service, career development opportunities etc), not just short-term financial compensation. Our Career representatives will advise on the best formula for you giving your individual circumstances.

(3) **Internship 1** earnings are guaranteed by study agreement.

(4) **Internship 2 Europe** and **Optional Employment** earnings – although these figures are accurate to the best of our knowledge, they are informative and not legally binding. They represent an average of last year’s stipends (and current year offerings) paid by the Host Companies in each chosen country. For exact figures for each Host Company please see a Career Department representative.

(5) **Internship 2 USA** earnings are guaranteed at no lower than \$15/h by study agreement. They can also differ from one Host Company to another and can go as high as \$25/h.
